## **UPDATE TO SHAREHOLDERS**

---

Shareholders are referred to Sable Platinum's 2013 Integrated Report, posted to shareholders on 31 May 2013, wherein the prospecting rights held and applied for by the company were disclosed.

In that regard, Sable Platinum is pleased to inform shareholders that the company has received confirmation from the Department of Mineral Resources that the application in terms of section 102 of the Mineral and Petroleum Resources Development Act for the mineral rights in respect of the vanadium and iron ore has been granted in respect of portions 3, 5, 39, 40, 42, the remaining extent of portion 4 and the remaining extent of the farm Leeukopje 415 KQ and the remaining extent of portion 1, the remaining extent of portion 3, the remaining extent of portion 5, portions 6, 7, 8, 10 and 11 of the farm Kaalvlakte 416 KQ, in the magisterial district of Thabazimbi.

The grant for the addition of the minerals vanadium and iron ore to the existing right is considered to be an important development for Sable Platinum as the vanadium magnetite reef outcrops are present on these properties. A railway line runs along the boundary of Sable Platinum's project area, which is a major infrastructure advantage.
